# RELY ON YOUR UTILITY VEHICLE PROTECTION PLUS EXTENDED WARRANTY.

Your utility vehicle is essential to your lifestyle, and a solid repair and maintenance plan can help you rest easier. Safeguarding your machine with Protection Plus® extended warranty is an important part of that strategy. This extended warranty plan from Bobcat allows you to purchase additional protection on your utility vehicle, and it goes well beyond the scope of the standard Bobcat warranty.

## WHAT DOES YOUR EXTENDED WARRANTY PROVIDE?

- **Peace of Mind:** For a small investment, you can protect your Bobcat® machine with additional warranty coverage to minimize your repair costs. If machine issues do occur, you know in advance that you are covered.
- **Risk Management:** By providing a comfortable shield of protection against repairs due to defects in materials or workmanship, an extended warranty greatly decreases your exposure to financial risk.
- **No Deductible:** Your Protection Plus extended warranty policy pays for the cost of any warrantable repair, with no deductible required.
- **Higher Resale Value:** If you sell your machine, any remaining Protection Plus extended warranty coverage can be transferred to the new owner. The extended warranty also tells a prospective buyer that your machine received superior care and maintenance.
- **Backing from Bobcat:** The Protection Plus extended warranty is fully backed by Bobcat to ensure you'll be as confident as we are in our products. It includes factory-backed parts and labor coverage, and it's honored at any authorized Bobcat dealer.
